DIVE MEDICALS

DO I NEED ONE?

You are required to complete a confidential medical questionnaire. Any positive responses to the questions will require you to obtain a dive medical.

If you are aged over 40 a dive medical is required regardless.

If you require a dive medical, please contact us for further paperwork and information.

While you may not require a dive medical, there is always the potential for an examination to pick up medical issues you were previously unaware of. Due to this, we ask you to sign a medical waiver to acknowledge this risk.

Directions

Complete this questionnaire as a prerequisite to a recreational scuba diving or freediving course.

Note to women: If you are pregnant, or attempting to become pregnant, *do not dive*.
